ESSENTIAL BEAUTY
MEDICAL SPA & LASER CENTER

At ***Essential Beauty Medical Spa***, we have been practicing skincare and cosmetic procedures since 1997. Our passion and devotion has earned us a loyal following of patients who trust our experience, education and eye for beauty.

RESULTS DRIVEN

Our medical estheticians are educated and experienced. Because of the changing times of the beauty industry, we feel it is essential to have continued education to learn about up-to-date procedures and equipment. With this knowledge, our estheticians are able to provide the best customized treatments to help you reach your skincare goals quickly, and with less time and money.

PROFESSIONAL STAFF

Our medical procedures are performed by Nurse Ling, who is not only a veteran RN to injectables and lasers, but also one of the founders of ***Essential Beauty***. Taking pride in each patient, she will meticulously help you create the look you desire.

"It has been over 2 weeks and my skin looks so amazing…fresh..glowing! My face has never felt so smooth. I was so surprised that I was not left with any redness the day after or even a few hours later. It was the perfect combination of procedures that my skin needed!"
– Cristin S. Yelper Foothill Ranch, California

"Sweetest and most patient staff ever! The whole spa thing is foreign to me, but all the people who work at EB were patient with explanations of procedures and always had a reassuring smile on their face."
– Annie H. Yelper Los Angeles California
