ESSENTIAL BEAUTY

MEDICAL SPA & LASER CENTER

At *Essential Beauty Medical Spa*, we have been practicing skincare and cosmetic procedures since 1997. Our passion and devotion has earned us a loyal following of patients who trust our experience, education and eye for beauty.

RESULTS DRIVEN

Our medical estheticians are educated and experienced. Because of the changing times of the beauty industry, we feel it is essential to have continued education to learn about up-to-date procedures and equipment.

With this knowledge, our estheticians are able to provide the best customized treatments to help you reach your skincare goals quickly, and with less time and money.

PROFESSIONAL STAFF

Our medical procedures are performed by Nurse Ling, who is not only a veteran RN to injectables and lasers, but also one of the founders of *Essential Beauty*. Taking pride in each patient, she will meticulously help you create the look you desire.
